

THE  
**RA-LOCK**  
GROUP

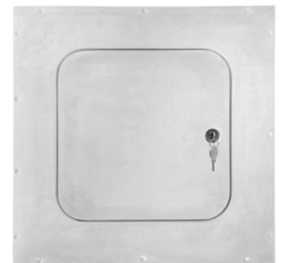

# Aircraft Security & Access Control Solutions

**Protecting Aircraft. Controlling Access. Supporting Operational Readiness.**

Aircraft require secure, reliable access control across multiple compartments, panels, and systems while supporting frequent maintenance, inspections, and ground operations. The RA-Lock Group delivers high-security locking, key control, and access management solutions engineered to protect avionics bays, cargo compartments, service panels, and interior storage while ensuring technician accountability and operational efficiency across commercial, military, and general aviation fleets.

## INDUSTRIES

- Commercial & Regional Airlines
- Business & Corporate Aviation
- General Aviation & MRO Facilities
- Aircraft OEMs & Interior Manufacturers
- Government & Defense Aviation

THE  
**RA-LOCK**  
GROUP

# WHY AVIATION OPERATORS TRUST THE RA-LOCK GROUP

- Lightweight, durable locking solutions designed for aerospace environments
- Tamper- and vibration-resistant designs for in-flight and ground operations
- Restricted and patented key control for maintenance accountability
- Scalable systems across fleets and multi-base operations
- Supports maintenance documentation and audit requirements

**RA-LOCK**  
SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

## CORE SOLUTIONS FOR AIRCRAFT SECURITY

### Compartment & Panel Locks

- High-security locks for avionics bays, access panels, cargo compartments, and service doors with resistance to picking, drilling, and forced entry.

### Restricted & Patented Key Control

- Prevents unauthorized key duplication and ensures accountability across maintenance crews, ground staff, and third-party service providers.

### Electronic & Hybrid Access Control

- Electronic and hybrid cylinders that support programmable access, time-based permissions, and audit trails for sensitive aircraft areas.

### Key & Asset Management Systems

- Centralized systems for tracking and managing aircraft keys, tooling, and access credentials across hangars, bases, and fleets.

### OEM & Interior Integration Programs

- Custom lock solutions, master key systems, documentation, and long-term program support for aircraft OEMs, interiors, and retrofit programs.
