

Commercial Drawer & Cabinet Security Solutions

Protecting Assets. Controlling Access. Built for OEM Integration.

Commercial drawers and cabinets are used across demanding environments where tools, inventory, electronics, and sensitive materials must remain secure while supporting frequent access. The RA-Lock Group delivers high-security locking, key control, and access management solutions engineered for seamless OEM integration into commercial drawer and cabinet systems. Our solutions protect contents, reduce theft, and provide long-term reliability across high-use, multi-site deployments.

INDUSTRIES

- Commercial Cabinet & Drawer Manufacturers

- Scalable programs for national and global deployments
- Long-term program support and documentation

RA-LOCK
SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR DRAWER & CABINETS

High-Security Cam & Drawer Locks

- Engineered locking solutions for drawers, cabinets, and enclosures with resistance to picking, drilling, and forced entry. Designed for smooth operation under frequent use.

Restricted & Patented Key Control

- Prevents unauthorized key duplication and ensures accountability for end users, service personnel, and facility managers.

Electronic & Hybrid Access Control

- Electronic cylinders and hybrid solutions that provide audit trails, programmable access, and credential-based control for higher-security applications.

Key & Asset Management Systems

- Centralized key issuance, tracking, and auditing for customers managing large cabinet and drawer deployments.

OEM Lock Programs & Custom Integration

- Custom lock configurations, master key systems, labeling, documentation, and long-term program management tailored to manufacturer specifications.
