

# CORRECTIONAL FACILITY SECURITY SOLUTIONS

**Controlling Movement. Securing Facilities. Protecting Life.**

Correctional facilities operate in high-risk, high-liability environments where access control is fundamental to safety, security, and operational integrity. From perimeter gates and housing units to control rooms, armories, and service corridors, every access point must function flawlessly under constant use. The RA-Lock Group delivers high-security mechanical and electronic access control solutions engineered specifically for correctional environments—supporting inmate control, staff accountability, emergency response, and long-term reliability.
