

THE
RA-LOCK
GROUP

EMT, Pharmaceutical Storage & Medical Cart Security

Protecting Medications. Securing Equipment. Supporting Patient Care.

The RA-Lock Group delivers high-security locking and access control systems engineered for EMT units, pharmaceutical storage, and medical carts in hospitals, clinics, pharmacies, and emergency response environments. Our solutions protect controlled substances, medications, equipment, and patient-sensitive materials while maintaining strict access accountability, audit readiness, and regulatory compliance.

INDUSTRIES

- Hospitals & Healthcare Systems
- Pharmacies & Compounding Facilities

MEDICAL & PHARMACEUTICAL SECURITY SOLUTIONS

Medical Cart & Drawer Locking Systems

- High-security cam and drawer locks for crash carts, medication carts, and mobile treatment stations.

Controlled Substance Storage Safes

- DEA-compliant safes and lock solutions for narcotics and prescription medications.

Restricted & Patented Key Control

- Prevents unauthorized key duplication and enforces accountability across care teams.

Offline & Electronic Access Control

- Access systems that log user activity and provide audit trails for compliance reporting.

Key Management & Smart Cabinets

- Centralized storage and issuance of medication and equipment access keys.
