

ELECTRICAL POWER DISTRIBUTION SECURITY

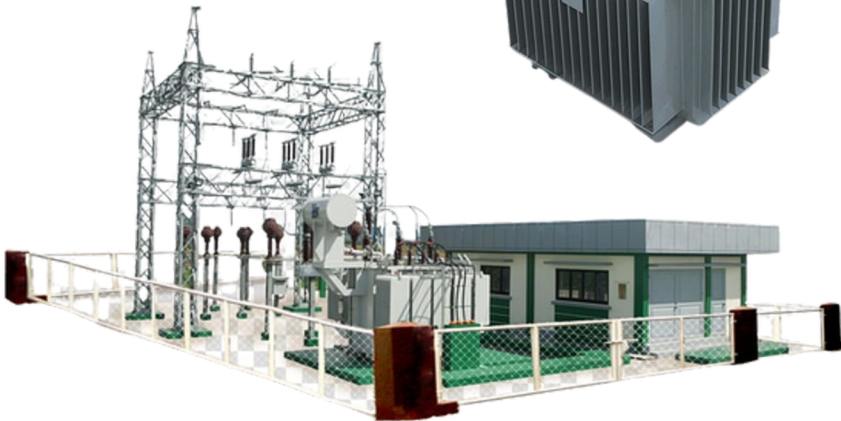

Protecting the Grid. Controlling Access. Ensuring Reliability.

Electrical power distribution systems are critical infrastructure that require secure, controlled access across substations, switchgear, transformers, control rooms, and distribution networks. These facilities often operate unattended, outdoors, and across wide geographic areas while supporting public safety and economic stability. The RA-Lock Group delivers industrial-grade mechanical and electronic access control solutions engineered to protect electrical assets, prevent tampering, support compliance, and maintain uninterrupted power delivery.

INDUSTRIES

- Electrical Utilities
- Power Distribution & Transmission
- Substations & Switchyards
- Renewable Energy Facilities
- Industrial Power Systems
- Municipal & Cooperative Utilities

WHY POWER UTILITIES TRUST THE RA-LOCK GROUP

- Designed for unattended and remote electrical infrastructure
- Supports safety standards, compliance, and audit readiness
- Prevents tampering, vandalism, and unauthorized access
- Controls contractor and multi-shift workforce access
- Scales across municipal, regional, and national grids

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR POWER DISTRIBUTION OPERATIONS

ELECTRONIC ACCESS CONTROL

- Medeco XT electronic cylinders – audit trails, time-based access, route control
- ABLOY PROTEC² CLIQ™ hybrid electronic access for high-security utility environments
- Yale nexTouch™ keypad & credential access for control rooms and offices

RESTRICTED & PATENTED KEY CONTROL

- Medeco M4 restricted key systems
- KeyMark x4 SFIC/LFIC retrofit solutions
- Master-key hierarchies with full documentation

KEY & ASSET MANAGEMENT

- Security Asset Manager™ (SAM) electronic key cabinets
- Smart FOB SAM – technician, contractor, and vehicle accountability

PADLOCKS & OUTDOOR SECURITY

- ABLOY Hardened & Super Weatherproof padlocks
- Hockey puck locks for transformers, cages, and equipment enclosures
- Bluetooth padlocks for substations, yards, and remote assets
