System Integration - Layered Protection

Perimeter : Padlocks & All-Weather Locks

Entry : Mortise/LFIC Cylinders

Cages : Server Locks

Racks : Cam Locks

Panels : Tubular/Cam/Swing Handle Locks

Control : Key Cabinets + CLIQ Software

Audit, Compliance, and Efficiency

- Full audit trail and access history per lock.
- Zero rekeying—access revocation is digital.
- Meets ISO 27001 and SOC 2 physical-access requirements.
- Seamlessly scalable across multiple data centers.

Perimeter

All-weather padlocks secure outer gates, HVAC cages, and generators.

eCLIQ All-Weather Padlock

Abloy PL Series

Entry

eCLIQ Mortise and LFIC cylinders protect main entry doors and mantraps with programmable access.

eCLIQ Mortise

eCLIQ LFIC

Cages

eCLIQ Server Locks and puck locks restrict tenant enclosure access with audit logging.

Medeco eCliq Server Lock

Cobra Puck Lock

Racks

Cam locks secure individual racks and network cabinets.

eCLIQ Cam Lock

Medeco Cam Lock

ASSA Desma Cam

Panels

Tubular, cam, and swing handle locks guard fiber, PDU, and power control panels.

8-Change Tubular

Medeco Cam Lock

Swing Handle Lock

Control

Key Boxes and Cliq software provide centralized key management and audit tracking.

Security Asset Manager - Key Box

CLIQ Software

In collaboration with Medeco, RA-Lock delivers an integrated suite of security solutions built to protect every layer of the data center.
