GROUP

Gaming Kiosk System Security Solutions

Protecting Revenue. Securing Access. Powering Trusted Play.

The RA-Lock Group delivers high-security locking, key control, and access management systems engineered for gaming kiosks and self-service gaming platforms used across casino floors, sports betting stations, and hospitality gaming environments. Our solutions protect cash compartments, service doors, internal electronics, and sensitive gaming components while maintaining strict access accountability, audit readiness, and compliance with gaming regulations.

INDUSTRIES

- Casinos & Gaming Resorts
- Sports Betting & Wagering Kiosks
- Lottery & Gaming Technology OEMs
- Hospitality & Entertainment Venues
- Tribal & Commercial Gaming Facilities

THE

GAMING KIOSK SECURITY SOLUTIONS

High-Security Cam & Service Door Locks

- Engineered for kiosk doors, cash cassettes, and internal service compartments with resistance to picking, drilling, and forced entry.

Restricted & Patented Key Control

- Prevents unauthorized duplication and maintains strict accountability across technician and operations teams.

Offline & Networked Access Control

- Access systems that log activity and provide audit trails to meet gaming compliance standards.

Key Management & Smart Cabinets

- Centralized storage, issuance, and tracking of keys for casino security and service teams.

OEM Lock Programs & Custom Integration

- Custom lock design, master key systems, documentation, and long-term OEM program management for gaming equipment manufacturers.
