# EQUIPMENT & DISTRIBUTED GAMING SOLUTIONS

**Securing Devices. Controlling Access. Supporting Regulatory Compliance.**

Gaming environments extend far beyond casinos and include distributed, unattended, and route-based gaming equipment deployed across retail, hospitality, entertainment, and public venues. These systems require tamper-resistant, auditable access control to protect revenue-generating devices, prevent unauthorized access, and maintain regulatory integrity. The RA-Lock Group delivers high-security mechanical and electronic access control solutions engineered specifically for gaming equipment manufacturers, route operators, and regulated gaming deployments.
