

Emergency

Smart Access for Safer Hospitals & Protected Patients

Modern healthcare facilities face constant security challenges driven by 24/7 staffing cycles, medication storage requirements, sensitive records, visitor access, and high-risk areas that demand strict control. RA-LOCK delivers mechanical and electronic security solutions that strengthen safety across patient care units, pharmacies, labs, administrative offices, and infrastructure rooms by preventing unauthorized access and protecting medications, sensitive equipment, and assets. Our systems support controlled access to medication rooms and restricted clinical areas, secure narcotics storage, mobile devices, laptops, and security equipment, enable key management for staff and contractors, and help track physical keys across buildings while supporting HIPAA compliance through secure storage.

SYSTEM INTEGRATION - LAYERED PROTECTION

WHY HOSPITALS TRUST RA-LOCK GROUP

- 50+ years of trusted healthcare security experience
- High-security solutions for medications and restricted areas
- Strong key control to prevent unauthorized access
- Scalable systems for large, 24/7 facilities
- Reliable protection across hospitals and clinics

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR HEALTHCARE FACILITIES

ELECTRONIC ACCESS CONTROL

Ideal for medication rooms, supply closets, labs, pharmacy vaults, and administrative offices.

- Medeco XT - Electronic cylinders with audit trails and programmable access rights
- ABLOY PROTEC² CLIQ™ - Hybrid detainer disc cylinder + electronic credentialing
- Yale nexTouch™ - Keypad/keycard electronic door lock solutions
- Master Lock Vault Enterprise - Mobile-access Bluetooth locks for equipment rooms

PADLOCKS & EQUIPMENT SECURITY

- ABLOY Super Weatherproof and Hardened Padlocks - For oxygen cages, outdoor storage, generators
- Bluetooth Padlocks (Master Lock, ABLOY BEAT) - Mobile app access for security teams
- Specialty locks for medical carts, storage cages, and emergency equipment

HIGH-SECURITY LOCKING SYSTEMS

- Medeco M4 Restricted Keys - Patent-protected key control
- KeyMark x4 Key Systems - Versatile SFIC/LFIC retrofit for hospital door hardware
- ABLOY PROTEC² Disc Locking Systems - Extreme durability for high-risk areas

KEY & ASSET MANAGEMENT

Perfect for pharmacy teams, security departments, facilities, IT, and biomedical engineering.

- Security Asset Manager™ (SAM) - Electronic key cabinets with PIN-based access and audit logs
- Smart FOB SAM - Compact storage for ID badges, narcotics cage keys, and equipment keys
- SWATBox® & SurfaceSWAT™ - Secure embedded lockers
- GFMS™ Cloud Software - Enterprise-wide monitoring and oversight
