

Safe, Secure Access Solutions for K-12 Schools

K-12 schools manage diverse security needs across classrooms, hallways, offices, gyms, labs, and outdoor areas. RA-LOCK delivers durable, high-security mechanical and electronic solutions that protect students, staff, facilities, and school assets by reducing operational risk, preventing unauthorized access, supporting safety protocols, and giving administrators greater control over keys, doors, and critical campus areas. Our solutions secure classrooms and main entrances, manage access for teachers, staff, substitutes, and contractors, protect high-value equipment, safeguard gyms, athletic storage, and maintenance buildings, and provide reliable performance in high-traffic student environments.

SYSTEM INTEGRATION - LAYERED PROTECTION
