

Smart Access for Safer Operations & Protected Equipment

Manufacturing facilities face unique security challenges, including large campuses, shift-based workforces, expensive machinery, tool rooms, hazardous areas, and constant vendor access. The RA-LOCK Group delivers industrial-grade mechanical and electronic security solutions designed to protect people, equipment, and critical infrastructure across every production environment. Our systems control access to fabrication floors, chemical storage, maintenance shops, and restricted zones; secure tool rooms, calibration equipment, consumables, IT closets, and control panels; manage keys for large, rotating workforces across multiple shifts; prevent theft of copper, tools, inventory, and sensitive equipment; and protect outdoor yards, gates, fuel tanks, and heavy equipment from tampering.

SYSTEM INTEGRATION - LAYERED PROTECTION

WHY PLANTS TRUST RA-LOCK GROUP

- 50+ years of manufacturing security experience
- Industrial-grade locks for harsh environments
- Strong key control to reduce theft
- Scalable systems for large, multi-shift facilities
- Reliable protection for equipment and assets

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR MANUFACTURING FACILITIES

ELECTRONIC ACCESS CONTROL

Ideal for maintenance rooms, control panels, tool cribs, IT rooms, equipment cages, and hazardous areas.

- Medeco XT - Electronic cylinders with audit trails, time-based access, and route control
- ABLOY PROTEC² CLIQ™ - Hybrid mechanical/electronic access for high-security industrial environments
- Yale nexTouch™ - Commercial keypad and keycard locks for high-traffic areas
- Master Lock Vault Enterprise - Bluetooth padlocks and lock boxes for equipment and yard access

KEY & ASSET MANAGEMENT

Critical for tool rooms, maintenance departments, production supervisors, and security teams.

- Security Asset Manager™ (SAM) - Electronic key cabinets with PIN access, transaction logs, and customizable capacity
- Smart FOB SAM - Ideal for controlling tool keys, forklift keys, IT badges, or high-value equipment

HIGH-SECURITY LOCKING SYSTEMS

Engineered for harsh industrial environments.

- Medeco M4 Restricted Keys - Patent-protected keys prevent unauthorized duplication
- KeyMark x4 - Flexible SFIC/LFIC retrofit for facility door hardware
- ABLOY PROTEC² Disc Locking Systems - Elite durability for outdoor and heavy-duty industrial locks

PADLOCKS & EQUIPMENT SECURITY

Built for demanding manufacturing environments.

- ABLOY Hardened & Super Weatherproof Padlocks - Ideal for gates, steel cages, fuel tanks, and outdoor yards
- Hockey Puck Locks - Maximum protection for roll-up doors, tool chests, and storage units
- Master Lock & ABLOY Bluetooth Padlocks - App-based access for maintenance and yard teams
