

THE
RA-LOCK
GROUP

Merchandiser & Retail Cooler Security Solutions

Protecting Inventory. Securing Revenue. Controlling Access.

The RA-Lock Group delivers high-security locking, key control, and access management systems engineered specifically for refrigerated, frozen, and ambient retail merchandisers. Our solutions secure product compartments, service panels, cash drawers, and internal electronics while maintaining strict access accountability across retail, distribution, and field service environments.

INDUSTRIES

- Refrigerated & Frozen Merchandiser Manufacturers
- Beverage Merchandiser Manufacturers
- Convenience Stores & Fuel Stations
- Grocery & Big Box Retail
- Vending & Micro-Markets
- Quick Service Restaurants

THE
RA-LOCK
GROUP

WHY MERCHANDISER MANUFACTURERS CHOOSE RA-LOCK GROUP

- Anti-tamper, anti-pick, and anti-drill security designs
- Centralized key and access control programs
- OEM manufacturing & private-label lock programs
- Compliance, audit, and documentation management
- Scalable systems for national retail footprints

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

MERCHANDISER SECURITY SOLUTIONS

High-Security Service Door & Compartment Locks

- Engineered locking systems for merchandiser doors, access panels, and cash compartments with resistance to drilling, picking, prying, and forced entry.

Restricted & Patented Key Control Systems

- Prevents unauthorized key duplication and enforces strict accountability across route drivers, technicians, and service networks.

Offline & Networked Access Control

- Electronic and mechanical access solutions that log service activity and support audit trails for maintenance and loss-prevention teams.

Smart Key Cabinets & Route Management

- Centralized issuance and tracking of route keys, merchandiser access keys, and service credentials.

OEM Lock Programs & Custom Integration

- Custom lock engineering, private-label programs, master keying, documentation, and long-term OEM program management.
