

Protect & Secure Every Unit with Smart Access

Self-storage facilities face demanding security challenges, including hundreds of individual units, constant tenant turnover, outdoor exposure, and after-hours access that require protection around the clock. The RA-Lock Group delivers industrial-grade mechanical and electronic security solutions that prevent break-ins, strengthen perimeter protection, and improve operational control while ensuring tenant confidence. Our systems secure storage units against forced entry, protect exterior gates and high-risk outdoor areas, safeguard maintenance rooms, electrical panels, offices, and key cabinets, and support controlled key management for staff, onsite managers, contractors, and cleaning crews. Built for heavy daily use, our solutions are weather-resistant and designed to withstand heat, rain, and corrosion in demanding outdoor environments.

SYSTEM INTEGRATION - LAYERED PROTECTION

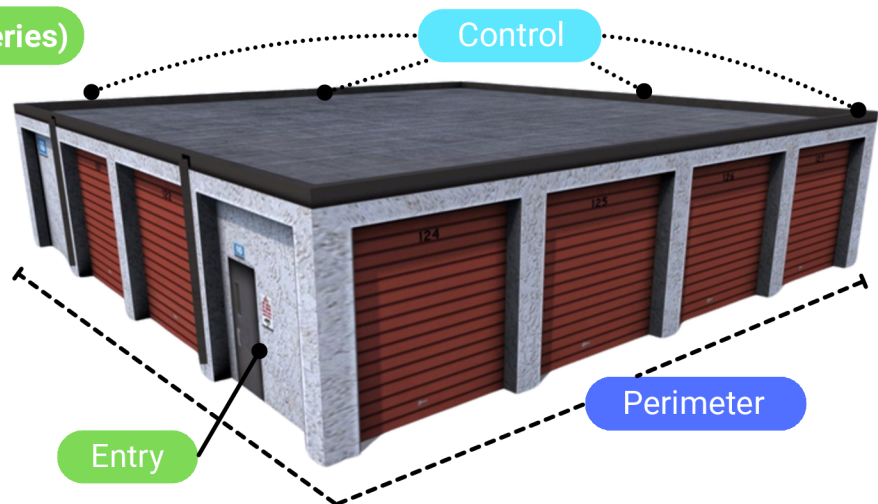

Entry: Push Button Key Card Locks (Trilogy Series)

Entry: Mortise/SFIC Cylinders

Entry: Networx Cylindrical (Pin/Prox)

Perimeter: Padlocks & All-Weather Locks

Control: Key Cabinets & CLIQ Software

WHY STORAGE FACILITIES TRUST THE RA-LOCK GROUP

- Trusted security solutions backed by 50+ years of experience
- Industrial-grade locks that resist break-ins and forced entry
- Weather-resistant designs built for outdoor exposure
- Strong key control to prevent unauthorized duplication
- Scalable systems for facilities with hundreds of units

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR PUBLIC & SELF-STORAGE

HIGH-SECURITY PADLOCKS & UNIT PROTECTION

Built to withstand cutting, drilling, and outdoor exposure.

- ABLOY Hardened & Super Weatherproof Padlocks - Elite durability and resistance to physical attack
- Hockey Puck Locks (Medeco, RA-Lock, Abloy) - Shackle-less design prevents cutting and tampering
- Diskus-Style Padlocks (ABUS) - Wide-range disc padlocks for storage unit roll-up doors
- Medeco High-Security Padlocks - Patent-protected key control to eliminate unauthorized duplication

PERIMETER & YARD SECURITY

Ideal for gates, fences, outdoor storage, and access control points.

- ABLOY BEAT Bluetooth Padlocks - Keyless mobile-access locks for perimeter gates
- Master Lock Vault Enterprise Bluetooth Systems - Manage access to outdoor areas digitally
- Weatherproof Padlock Lines (PL330, PL340, PL350, PL360) - For extreme weather and harsh environments

ELECTRONIC ACCESS CONTROL

Perfect for main entrances, office doors, staff areas, and restricted spaces.

- Medeco XT - Electronic cylinders with audit trails and programmable access
- ABLOY PROTEC² CLIQ™ - Hybrid mechanical/electronic solution for high-security areas
- Alarm Lock Trilogy - Keypad user access system

KEY & ASSET MANAGEMENT

Critical for facility managers and onsite staff.

- Networx Cylindrical (Pin/Prox) - Keyless entry system
- Security Asset Manager™ (SAM) - Electronic key cabinets with full/real-time audit capability
- Smart FOB SAM - Manage access to master keys, golf carts, gate remotes, and fleet keys
