TRAFFIC CONTROL CABINET & SIGNAL BOX SECURITY

Protecting Public Safety. Securing Infrastructure. Ensuring Uptime.

Traffic control cabinets and signal boxes house critical electronics that manage intersections, pedestrian crossings, smart traffic systems, and roadway safety infrastructure. These assets are typically unattended, roadside, and vulnerable to tampering, vandalism, and unauthorized access. The RA-Lock Group delivers industrial-grade mechanical and electronic access control solutions engineered to secure traffic cabinets, protect control electronics, and provide auditable access for maintenance, utilities, and municipal service teams.
