

High-Security Locking Solutions for Universities

Modern universities manage thousands of doors, keys, labs, residence halls, and high-value assets, creating complex access-control challenges. The RA-LOCK Group delivers high-security mechanical and electronic solutions that protect students, faculty, facilities, and research environments by reducing operational risk, preventing unauthorized access, and giving campus security teams centralized control over every key, door, and asset. Our systems support frequent rekeying, simplify access for contractors, faculty, and staff, secure labs and sensitive assets, manage large key systems, protect campus facilities, and help universities maintain safety and compliance.

SYSTEM INTEGRATION - LAYERED PROTECTION

- Perimeter: Padlocks & All-Weather Locks
- Control: Key Cabinets & CLIQ Software
- Entry: Mortise/LFIC Cylinders
- Cages: Server Locks
- Racks: Cam Locks
- Other Critical Campus Spaces

WHY COLLEGES TRUST THE RA-LOCK GROUP

- Proven high-security solutions for large university campuses
- 50+ years of experience securing critical infrastructure and facilities
- Strong key control with restricted keyways
- Scalable systems that support frequent rekeying and student turnover

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR HIGHER EDUCATION

ELECTRONIC ACCESS CONTROL

Ideal for residence halls, classrooms, labs, libraries, and athletic facilities.

- Medeco XT - electronic cylinders with audit trails
- ABLOY PROTEC² CLIQ™ - hybrid mechanical/electronic control
- Yale nexTouch™ - keypad + keycard door access
- Master Lock Vault Enterprise - mobile-access Bluetooth locks

Benefits: Reduce rekeying, control access by schedule, and track activity in real time.

KEY & ASSET MANAGEMENT

Perfect for campus police, housing, facilities, athletics, and IT.

- Security Asset Manager™ (SAM) electronic key cabinets
- Smart FOB SAM - badge/card management
- SWATBox® & SurfaceSWAT™ - secure equipment lockers
- GFMS™ Cloud Software - complete reporting and oversight

Benefits: Prevent key loss, track every user, and secure valuable equipment.

HIGH-SECURITY LOCKING SYSTEMS

- Medeco M4 Restricted Keys
- KeyMark x4 Key Systems
- ABLOY PROTEC² Disc Lock Technology

Benefits: Prevent unauthorized duplication and secure research areas.

PADLOCKS & EQUIPMENT SECURITY

- Bluetooth padlocks
- Weatherproof & shrouded locks
- High-security asset protection
