

WATER MANAGEMENT & UTILITY SECURITY

Protecting Critical Infrastructure. Securing Access. Ensuring Reliability.

Water management and utility systems operate as essential public infrastructure, supporting municipalities, industrial facilities, and commercial developments. These environments require secure, controlled access to treatment plants, pumping stations, reservoirs, control rooms, and distribution networks—often across remote, unattended, and outdoor locations. The RA-Lock Group delivers industrial-grade mechanical and electronic access control solutions designed to protect water assets, enforce compliance, prevent tampering, and maintain uninterrupted operations.

INDUSTRIES

- Municipal Water Utilities
- Wastewater Treatment Facilities
- Stormwater & Flood Control Systems
- Industrial Water Management
- Desalination & Reuse Facilities
- Irrigation & Agricultural Water Systems

WHY WATER AUTHORITIES & UTILITIES TRUST THE RA-LOCK GROUP

- Designed for unattended and remote infrastructure
- Supports regulatory compliance and audit readiness
- Prevents tampering, vandalism, and unauthorized access
- Controls contractor and multi-shift workforce access
- Scales across municipal, regional, and industrial systems

RA-LOCK SERVICES

- Master Key System Management
- Site Survey & Documentation
- Hardware Installation & Maintenance

CORE SOLUTIONS FOR WATER MANAGEMENT OPERATIONS

ELECTRONIC ACCESS CONTROL

- Medeco XT electronic cylinders – audit trails, time-based access, route control
